

SPAIN WILL YIELD

EVERYTHING INDICATES SPEEDY CONCLUSION OF PEACE.

TREATY WILL BE SIGNED SOON

NO SESSION OF PEACE COMMISSION HELD YESTERDAY.

Spaniards Hadn't Heard From Madrid and Asked That It Be Postponed—Germans Disturbed Over Prospective Cession of Philippines.

PARIS, Nov. 20.—In accordance with the request of the Spanish commissioners, there was no joint meeting of the peace commissions today. The Spaniards are awaiting instructions from Madrid.

The commission was expected as a hopeful sign that the treaty will be signed. While the Madrid government had not yet received the text of the American ultimatum, the Spanish ministers received enough by telegram yesterday night to enable them to instruct their commissioners to retire, were such their intentions.

The belief was confidently expressed by several of the American commissioners, in conversation with the correspondent of the Associated Press today, that before the time limit set by the Americans, namely, Monday next, the Spaniards will acquiesce in the United States' Philippine offer, and that, ultimately, the treaty will be signed by all the Spanish commissioners. It is true that the course which Senor Montero Rios, president of the Spanish commission, will follow is still uncertain, as he continues to "play to the gallery," but it is the member of the American commission believes he will sign with the other Spaniards. In any case, his place on the commission will be speedily filled, probably by Senor Leon y Castillo, the Spanish ambassador here.

Senor Montero Rios sent a communication to the American commissioners last evening asking a number of questions. The most important of them, and which was the subject of the correspondence, was the question of the cession of the Philippines. A member of the Spanish commission today assured the correspondent of the Associated Press that the next meeting of the commission will take place on Friday or Saturday, and that Spain's answer then will be the last she will make, and that it will be a definite conclusion of the matter in hand.

The utterance is looked upon as indicating that Spain will sign the treaty of peace.

LONDON, Nov. 20.—The Madrid correspondent of the Daily Mail says:

"Ministers deny that the Americans have offered Spain equal commercial privileges in the Philippines. They declare, on the contrary, that the United States commissioners have only offered to negotiate, after a treaty of peace has been signed, a special commercial treaty with regard to Spanish commerce."

"The Americans have demanded Young Island, in the Caroline group, as a coaling and cable station."

"The remains of Christopher Columbus on their arrival, will be deposited in a special monument at Seville."

"The Berlin correspondent of the Times, who remarks that the German government is not in a position to support the German claims regarding the Philippines, and calls attention to German speculations on the prospect of protection in the American possessions in the Pacific, is apparently secure."

"The Neuste Nachrichten draws attention to the treaty of 1876 between Spain, Great Britain and Germany, securing freedom of trade in the Sulu archipelago for Anglo-German shipping, and says that the German government is not in a position to support the German claims to that time, which the Sulu archipelago is now a part of the Philippines."

"The correspondent draws attention to the fact that a section of the German press is actually assuming the attitude of a 'dilettante' in the Sulu archipelago, and is actually assuming the attitude of a 'dilettante' in the Sulu archipelago, and is actually assuming the attitude of a 'dilettante' in the Sulu archipelago."

"It is easy enough to find flaws in the Anglo-American understanding. For our part, we have always been in favor of the 'open door' policy in the Philippines, and we have never for an instant doubted the sincerity of the United States government or its ability to fulfill its obligations."

"The editorial proceeds to argue as follows: 'Though some amendment of the constitution may be necessary to legitimize the novel policy of governing by protectorate, it would not be necessary merely to alter the existing constitution. What appears to be wanted is less an alteration of the constitution than an extension of the existing constitution for purposes not contemplated when the constitution was framed. In any case, the present enthusiastic expansion mood of the American people, these technical difficulties are not likely to prove troublesome.'"

MARSHED, Nov. 20.—A semi-official note issued today by the American commissioners to the Spaniards to furnish assistance to save the national credit "if they do not wish foreign capital to be withdrawn from Spain."

The note adds: "Some people believe that the Spaniards ought to assume their own debt, no matter in whose hands is her sovereignty, because the debt is not a national debt, but a private debt, and therefore it is not the business of the Spaniards to assume it. However, nobody will assume the debt, Spain must pay what she owes, and the Spaniards must wait a definite treaty of peace in order to know what conditions America will impose upon Spain through the peace commission."

A CANADIAN LADY Gives Her Experience With Coffee.

My sick headache and dull, languid, sleepy feelings have all gone since I have quit the use of coffee and taken to Postum Cereal Food Coffee.

You may be sure that I have abandoned the use of coffee altogether. A number of my friends in Ohio, Michigan and here in Canada have been benefited by Postum cereal food and using Postum. I have known cases where people disliked the taste of Postum, but upon inquiry I have discovered that it is because they did not allow it to boil long enough, and I know that this is always true in such cases. You can get a good cup of Postum without it being made, and that is simple and easy enough if one will only follow the directions.

HOME PRODUCTS SHOW. A Movement on Foot to Establish Permanent Headquarters and Exhibit.

Many ideas of how to spread abroad a knowledge of Kansas City made goods and their excellence, and thereby increase their sale, were suggested at the meeting of the Manufacturers' Association Monday evening. The one which seemed to take the strongest hold on the manufacturers was the idea of a permanent home products show.

There had been some talk on the matter before the meeting; there has been more since, and a good deal of quiet investigation is going on right now among the manufacturers of the city. It is believed that the home products show of last year have convinced all who observed it that some such idea as that carried out regularly would be of great value to the city.
